*Dear Members,*

Greetings

It brings us immense pleasure to bring the Fourth Edition of Advanced InvesTrade Forum's flagship product **Win@Trade** magazine.

What started as a knowledge sharing platform for a small group of Individuals in 2014 and has now become Advanced InvesTrade Forum, it marked its milestone with the first edition of **Win@Trade** being published in 2018 and since then each edition has raised the bar for the quality and content of the articles which are selected for the magazine.

With the theme of this edition being "Trading Art or Science" the magazine dives into the realm of trading with each article contributed by traders who have been following the strategies shared by them and weaves the articles such that it helps the reader decipher a balance of Art and Science in trading the financial markets.

Application of technical analysis for trading depends upon three data points, viz. Price, Volume and Open Interest. These data points and the tools used such as indicators and oscillators are scientific in nature but the Art lies in selecting optimum tools and techniques suitable to individual goals & psychology and that is why we try to analyse in this edition as to what is a perfect blend of Art and Science in Trading.

The editorial team has taken extreme care to select the articles that can provide varied systems, theories to intrigue the trader to rediscover/ reinvent his own system and recalibrate the balance of Art and Science in his trading system.

We hope to stimulate your thought process with the articles selected in this magazine and welcome all feedbacks and suggestions.

May God bless us all !!!

Happy Trading...

**Maneesh Gupta**  
**Dr. Aalap Deshpande**
