Editor's Message

Dear Members,

Greetings!!!

Markets are dynamic. Why should our members be any different? Advanced InvesTrade Forum(AIF) launches its first ever magazine and the editorial team is overwhelmed by the response. We always had an inkling that there are budding writers among our member-traders. Some of them picked the pen for the first time to write and share their KEI - Knowledge, Experiences and Ideas.

It is undoubtedly a historic moment in the journey of AIF. The magazine will be unveiled on the eve of the 5th Annual conference. Win@Trade is conceived as a signature product of our forum. The knowledge shared is of the Trader, by the Trader and for the Trader. We are a non-profit forum enjoying the patronage of more than 160 market participants from all over the country be it stocks, commodities or currencies. It was natural and logical to create and compile a repository of the valuable insights developed and shared by the members.

This issue being the first is special as it solidifies the knowledge sharing movement and triggers a wave of "Idea in the mind to words on paper" among the members. It is divided into two parts with the first one being a collection of write-ups & articles (Trader Writes) and the second part consisting of the presentation summary (Trader Talks) of each speaker in the conference.

"One idea can change your life". The endeavor of the editorial team has been to provide the readers with plenty of simple and useful ideas. This issue has many inputs for the serious trader. The trick for the self-motivated trader would be to read, assimilate, test and execute.

Your feedback would definitely help us improve. Happy reading!!!

Wishing you well,
Himaanshu Kansal
