

## EDITOR'S MESSAGE

Dear Members,  
Greetings!!!

In the Hindu scriptures since ancient times the five elements of Space, Air, Fire, Water and Earth are considered to be the building blocks of the Universe. It is believed that all that we sense are made up of one or more of the above elements.

Compared to plants and animals, God has blessed Humans with an evolved level of consciousness. Such consciousness empowers us to use our senses in order to make choices which in turn have their consequences. Hence, looking for opportunity, recognizing one, quoting price, taking risk and making money come naturally to us.

On a subtle level, success for a Trader rests on five elements viz. Curiosity, Flexibility, Patience, Perseverance and Humility. However, on the basic level success depends upon the psyche, risk management, set-up, position sizing and overall Trading edge.

The Editorial team has taken care to select content-rich

articles that can widen the horizon of the reader and reinforce the past learning as well. Articles have been authored by Trader-Members some of whom have picked the gauntlet and delivered their first article. We are happy to see such contributions because that further strengthens the philosophy of selfless sharing around which Advanced InvesTrade Forum is designed i.e. Sharing **K**nowledge, **E**xperiences and **I**deas.

We believe this magazine carries a lot of ideas, strategies, set-ups, precautions and experiences of proprietary Traders. This will help one to potentially change the orbit provided one explores them in-depth to find if they can be used in conjunction with one's existing system.

Win@Trade is a signature product of our forum and with each edition the bar is raised. This volume is a thematic one. Write-ups have been grouped according to the essence that each carries in tune with the five elements. The theme of five elements runs all through the magazine as do five elements in all that exists around us.

Feedback is welcome and happy reading!
