

Market's Panchtatva

Consequences will be dire if one is not ready to walk on Fire,
For success in the markets begin with discipline & passionate desire.

For the amateur & the markets - It seems love is in the Air,
Soon crashes to the ground and cries it's not fair.

Markets offer Stocks, Commodities & Currencies on its platter,
The expert chooses after testing the Water.

One who is ready to bear the heat like the Earth's crust,
Sooner than later gets rewarded in the Market's Upthrust.

The Supreme power watches one from Space,
Use gains to help someone & get showered by His Grace.
